<p>Menlu has had over 15 years experience in concrete products and general contracting. His Company PT Rabanton Maju Joyo Abadi can service all of Eastern Indonesia. Based in East Java with a reputation for being well priced and getting the job done fast. The company is fully licensed and permitted to undertake any project small, medium or large. His in-house team covers all aspects and ensures that costs are tightly controlled and timelines are met.</p> 	<p>A joint venture between PT Rabanton & PT CCC brings local knowledge and experience along with international expertise. The companies floating pontoons are designed and engineered by someone with hands-on yachting and marine experience and are built by a firm with extensive knowledge of local supply chains and with a deep understanding and familiarity with concrete products.</p> 	<p>Warrick has a broad range of marine related skills. Boat design and construction. Marina and floating structures. Not only design and engineering but the practical skills to ensure that the product matches the design specification. His company PT Custom Charter Cruises offers a yacht storage, service and refurbishment facility at Marina Boom Banyuwangi. Recreational craft from Super-yachts to cruising catamarans are well catered for.</p>
